STAKEHOLDERS SURVEY (17 18)

ANALYSIS REPORT ON STUDENT FEEDBACK SURVEY

1. Attain ability to apply knowledge of mathematics, science and Engineering fundamentals appropriate to the domain.

Percentage of students rated on 10 Point Scale				
10/10	9/10	8/10	7/10	Less than 7
47.3%	24%	28.7%	----	----

2. Apply their hardware development skill to design and implement commercial systems consisting of hardware and/or software

Percentage of students rated on 10 Point Scale				
10/10	9/10	8/10	7/10	Less than 7
44.3%	43.1%	12%	----	0.6%

3. Attain ability to practice as competent computer professional, with yearn for learning and employing emerging technologies.

Percentage of students rated on 10 Point Scale				
10/10	9/10	8/10	7/10	Less than 7
56.3%	23.4%	18.6%	----	1.7%

4. Have ability to design a hardware, component or process to meet desired needs within realistic constraints such as cost, environmental, society, health & safety, maintenance, feasibility and effectiveness.

Percentage of students rated on 10 Point Scale				
10/10	9/10	8/10	7/10	Less than 7
52.7%	29.9%	17.4%	----	-----

5. Have understanding of professional and ethical responsibility

Percentage of students rated on 10 Point Scale

STAKEHOLDERS SURVEY (17-18)

ANALYSIS REPORT ON FACULTY SURVEY

1. What is the response of the students in terms of complexity while applying computing knowledge to the engineering problems?

Percentage of Faculty Rated		
Excellent	Good	Satisfactory
61%	21%	18%

2. Are you satisfied with potentiality of the students in distinguishing and designing prototype related to computer science and engineering?

Percentage of Faculty Rated		
Excellent	Good	Satisfactory
28%	43%	29%

3. Are the students using basic engineering principles to analyze the performance of processes and systems and design solutions to meet desired needs?

Percentage of Faculty Rated		
Excellent	Good	Satisfactory
61%	28%	11%

4. What is the capability of students in giving practical exhibitions of progressive technology?

Percentage of Faculty Rated		
Excellent	Good	Satisfactory
30%	58%	12%

5. What is the ability of a student as an entrepreneur using various techniques and tools in engineering practice?

MINUTES OF THE MEETING

With reference to the circular dated on 22nd May 2017, The DAAC assembled in the department meeting room for addressing and reviewing the following agenda.

Agenda:

- Identifying the curriculum gaps
- Action to be taken for Identified Gaps

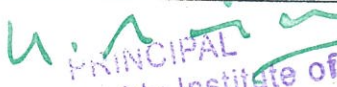

During Meeting the Following Members Were Present

SL.NO	Name of the teacher	Designation
1	Dr. A Chandrasekar	Professor
2	Dr.J. Vignesh	Professor
3	Dr. M. Venkat Reddy	Professor
4	G Anitha	Assoc.Professor

The following points were discussed during the meeting and the minutes were recorded as below,

1. The committee members discussed about the feedback analysis of stake holders.
2. The members conversed on identifying gaps based on the analysis.
3. The following actions were proposed to be taken for the parent's feedback.

S.no	Course year/sem	Name of the Subject	Topics to be taught beyond curriculum
1	II-I SEM	M4	Control theory, signal analysis, integral of memorphic function of cover closed curve, email processing and filter, space and time analysis
2	II-I SEM	MFCS	Cyclic groups, Poset decomposition of a group, non planar graph
3	II-I SEM	DS	Huffman algorithm, binomial heaps, splay trees
4	II-I SEM	DLD	Design of a 64*1 multiplex using 8*1 multiplexers, design a module 53 counter
5	II-I SEM	JP	Web technology, networking
6	II-I SEM	JP LAB	Servlet, jsp

The following actions were proposed to be taken for the parent's feedback.

Action taken:

The feedback of the parents promoted the institution to add on certificate courses, internships, industrial visits, talk by experts etc. Into the curriculum to help shape the students technical persona, as per the requirements and wishes to the parents.

The following actions were proposed to be taken for the alumni feedback.

Action taken:

The opinion of the alumni and the benefit that they had derived, helped the institutions to focus on the Alumnae in the syllabus and add-on through extra and in-depth practical explanation, lab program, add-on real time experience etc., into the teaching learning methodology.

S.NO	Name of the Faculty	DEPARTMENT	Class Level - Theory	Class Level - Practical/Lab	What is the response of the students in terms of complexity while applying hardware design related to the engineering problems?	Are you satisfied with the potentiality of the students in distinguishing and designing hardware design related to Electronics & Communication engineering?	Are the students using basic engineering principles to analyze the performance of processes and systems and design solutions to meet distinct needs?	What is the capability of students in giving an exhibition or using various tools and technology in engineering practice?	What is the ability of a student as an entrepreneur using various tools and technology in engineering practice?	Can the students integrate engineering techniques, skills, and tools to solve real-world problems?	Are the students able to estimate the impact of engineering solutions in a societal context?	What is the student's ability to manage team to meet deadlines and address the ethical issues when working on engineering problems when leading a project?	Are the students able to collaborate with others when working on multidisciplinary teams?	Have you observed any growth in the interpersonal skills of the students as an individual and while working on teams?	What is the ability of students while addressing the business, financial, and market related matters associated with projects in engineering specialization?	Are the students willing to participate in seminars, workshops and internships to acquire the knowledge on modern engineering practices?	Do you have additional support for teaching (tutors, graders, teaching Assistants, etc)?	Do you give class mini/hobby projects for UG classes?	Would you like to have common and activity based learning system of course material?	Would you like to participate in creation of the repository material course files/lab manuals/question bank(etc)	Are such workshop/program related to specific engineering and science problems	Coverage of modern/advanced topics	Students' attendance in the class of teacher who is being evaluated	Skill of linking subject to life experience & creating interest in the subject	Blackboard/Whiteboard work in terms of legibility, visibility and structure	Helps student in providing study material which is readily available in the textbooks say through e-resources, reference books, open course ware etc.	Any suggestions

MINUTES OF THE MEETING

With reference to the circular dated on 23th June 2018, The DAAC assembled in the Department seminar hall.

Agenda:

- Identifying the curriculum gaps
- Action to be taken for Identified Gaps

During Meeting the Following Members were present

S.No	Name Of The Faculty	Designations	Signature
1	Dr K RAVINDRA	PRINCIPAL	
2	Dr RINTU KUMAR GAYEN	PROFESSOR	
3	Dr JAI PRAKASH DWIVEDI	PROFESSOR	
4	Dr M RAMANAIA H	PROFESSOR	

The following points were discussed during the meeting and the minutes were recorded as below,

1. The committee members discussed about the feedback analysis of stake holders.
2. The members conversed on identifying gaps based on the analysis.
3. The following actions were proposed and action to be taken for the identified gaps.

S.no	Course year/sem	Name of subject	Topics to be taught beyond curriculum

4. The following actions were proposed to be taken for the parent's feedback.

Action taken:

The feedback of the parents promoted the institution to add-on certificate courses, internships, industrial visits, talk by experts etc... Into the curriculum to help shape the students technical persona, as per the requirements and wishes to the parents.

5. The following actions were proposed to be taken for the alumni feedback.

Action taken:

The opinion of the alumni and the benefit that they had derived, helped the institutions to focus on the human in the syllabus and add-on through extra and in-depth practical explanation, lab program, lead-on real time experience etc., into the teaching-learning methodology.

5. The following actions were proposed to be taken for the employer feedback

Action taken:

Based on this feedback, it was felt that more emphasis should be given to training programs, personality development classes and Placement training.

DEPARTMENT OF CIVIL ENGINEERING

ACADEMIC YEAR 2017-18

ANALYSIS REPORT ON STUDENT EXIT SURVEY

1. An ability to apply knowledge of computing, mathematics, science and engineering fundamentals appropriate to the Civil Engineering discipline.

Percentage of students rated				
10/10	9/10	8/10	7/10	Less than 7
84%	10%	6%	-----	-----

2. An ability to analyze a problem, identify and formulate the requirements appropriate to its solution.

Percentage of students rated				
10/10	9/10	8/10	7/10	Less than 7
72%	20%	8%	-----	-----

3. An ability to design, implement a process to meet desired needs with appropriate consideration for public health and safety, cultural, societal and environmental considerations.

Percentage of students rated				
10/10	9/10	8/10	7/10	Less than 7
70%	23%	7%	-----	-----

4. An ability to design and conduct experiments, as well as to analyze and interpret data.

Percentage of students rated				
10/10	9/10	8/10	7/10	Less than 7
62%	21%	12%	5%	-----

5. An ability to use current techniques, skills, and modern tools necessary for civil engineering practice.

Percentage of students rated				
10/10	9/10	8/10	7/10	Less than 7
65%	27%	6%	2%	-----

6. An ability to analyze the local and global impact of civil engineering on individuals, organizations and society.

Percentage of students rated				
10/10	9/10	8/10	7/10	Less than 7
65%	23%	12%	-----	-----

ANALYSIS REPORT ON FACULTY SURVEY

1. What is the response of the students in terms of complexity while applying computing knowledge to the engineering problems?

Percentage of Faculty Rated		
Excellent	Good	Satisfactory
58%	42%	----

2. Are you satisfied with potentiality of the students in distinguishing and designing related to civil engineering?

Percentage of Faculty Rated		
Excellent	Good	Satisfactory
52%	48%	----

3. Are the students using basic engineering principles to analyze the performance of processes and systems and design solutions to meet desired needs?

Percentage of Faculty Rated		
Excellent	Good	Satisfactory
75%	25%	----

4. What is the capability of students in giving practical exhibitions of progressive technology?

Percentage of Faculty Rated		
Excellent	Good	Satisfactory
54%	46%	----

5. What is the ability of a student as an entrepreneur using various techniques and tools in engineering practice?

Percentage of Faculty Rated		
Excellent	Good	Satisfactory
